Subject Re: United Zinc

Eddie - I got to looking at my calendar. I can do 4/19 and morning 4/20, 4/23-24, and 4/26 and morning of 4/27. I talked with state health. Evidently Rick Bean had a mtg with them about doing enhanced screening there. We really need to coordinate with them. I think they will be open to what we're wanting - they can get lab results in 2-3 days. I offered myself, instrument and staff to facilitate. Lesa Roberts (KDHE health) is going to set up conf call so we can all work together. She and I talked about doing lead care analyzer then venous with those that are elevated.

finish each day and be done with it. you have done what you could. some blunders and absurdities have crept in: forget them as soon as you can. tomorrow is a new day. you shall begin it serenely and with too high a spirit to be encumbered with your old nonsense. emerson
